Dear George:

With an MIT and numismatic background you and I have had better luck than most people's genes to be around so long. Thank you for the greetings. Keep researching and writing. Eric

Hi Eric:

Heard you had another milestone in May. Its wonderful.

Just learned you've celebrated 75 years in ANA. The only challenger to this,I think, is Emery Mae Norweb who joined about 1904. This is my 60th year, so all I have to live is 15 more years to catch up with you--this is doubtful..

Best wishes for continued health.

George.

Thank you George for the mention of my Audubon work. I was asked to do it and had not heard of the problem before that. Being asked to do something is often more satisfying than thinking them up alone.

My best

Eric. . . .

Hi Eric:

You have done it again--great work on Audbon! Tried to print out the picture of you and Evelyn that was in the St. Louis article but for some reason it won't print.

Congrats. again.

I didn't make it to Boston either.

Best,

George
